

Vacuum Mini pump

Models

- MBV1001

Application

- Laboratory
- Industry
- General purposes

Specifications

- Adjustable vacuum (0-650mmHg)
- Low energy consumption
- Low noise generation
- Integrated Vacuometer
- Compact
- Bivolt (110V-220V) or 24 Volts DC direct power supply
- Dimensions: 11cm X 11cm X 15cm
- EPDM membrane and silicone tubes embedded (gas corrosion resistant)
